MINUTES OF THE ILLINOIS WORKERS' COMPENSATION COMMISSION
WORKERS' COMPENSATION ADVISORY BOARD MEETING
JAMES R. THOMPSON CENTER, 100 WEST RANDOLPH STREET – ROOM 9-040
HELD ON NOVEMBER 30, 2011 at 9:00 AM

Present at the meeting were:
Chairman Mitch Weisz, ex officio member
William Lowry – Nyhan, Bambrick, Kinzie, and Lowry
Michael Carrigan – Illinois AFL-CIO
Richard Aleksy – Corti, Aleksy, and Castenada
Mitchell Abbett – Holten Meat Inc.
Sean Stott – Laborers' International Union

IWCC staff present at the meeting were:
Susan Piha, Manager of Research and Education
Bob Devereaux, Fraud Prevention and Efficiency Controller
Robert Kern, IWCC Fiscal
Kim Janas, Secretary of the Commission
Darrell Widen, Assistant General Counsel
Ronald Rascia, General Counsel

Chairman Mitch Weisz started the joint presentation to the Medical Fee Advisory Board and also the Workers' Compensation Advisory Board at 9:00 am by introducing the presenters, Ms. Terri Robinson and Ms. Karen Ayers, both of National Commission on Compensation Insurance (NCCI). Ms. Robinson and Ms. Ayers then provided a Powerpoint presentation to the Boards. The slides from the presentation are attached to these minutes.

The presentation concluded at 12:00 pm.

Today's Agenda

NCCI: Who We Are and What We Do

Forces of Change in Workers Compensation Systems

- Legislative Environment
- The State of the Economy

Comparative System Overview

- Where Does Illinois Stand?
- What's Driving Loss Costs?
- Claim Frequency
- Indemnity and Medical Costs
- The Residual Market in Illinois

NCCI Resources

NCCI

NCCI's Charter

NCCI was established in 1922 to coordinate the interests of insurers with those of regulators and other public policy makers.

- NCCI is guided by the regulatory agencies in the 36 jurisdictions where we are licensed or designated as a statistical agent
- NCCI operates as a not-for-profit corporation, owned by insurers

QUIT

NCCI

NCCI's Mission

To foster a healthy workers compensation system by providing high quality information and analytical services that result in:

- **Adequate loss costs/rates**
- **Objective reform evaluation**
- **Self-funded residual markets**
- **Tangible value for stakeholders**

NCCI

Conceptual Portrait –
A Closer Look at What We Do

NCCI occupies a unique business space within the workers compensation industry

- Ratemaking
- Reform
- Residual market
- Ratings
- Rules
- Reporting

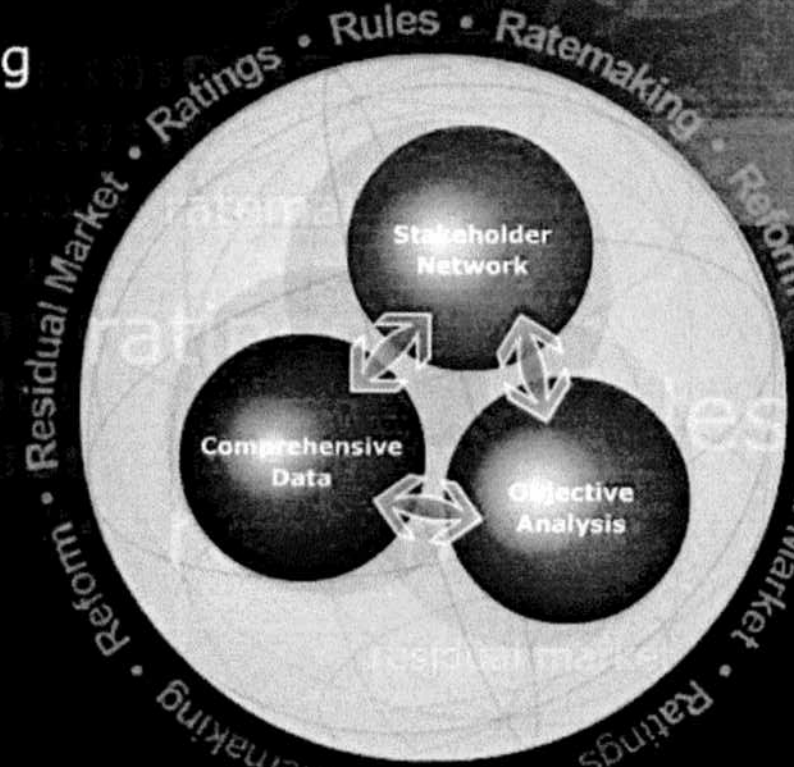
NCCI

Conceptual Portrait

NCCI's unique competencies

- Gathering comprehensive data
- Objectively analyzing that data
- Sharing information with a stakeholder network



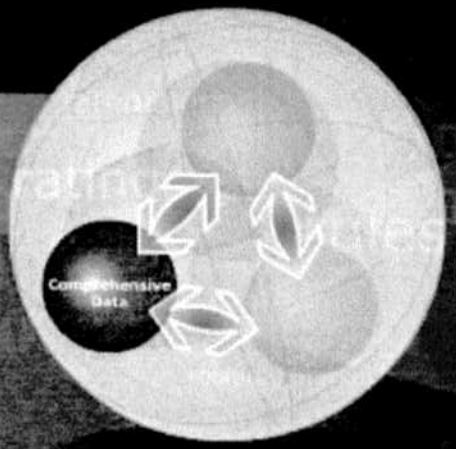
NCCI

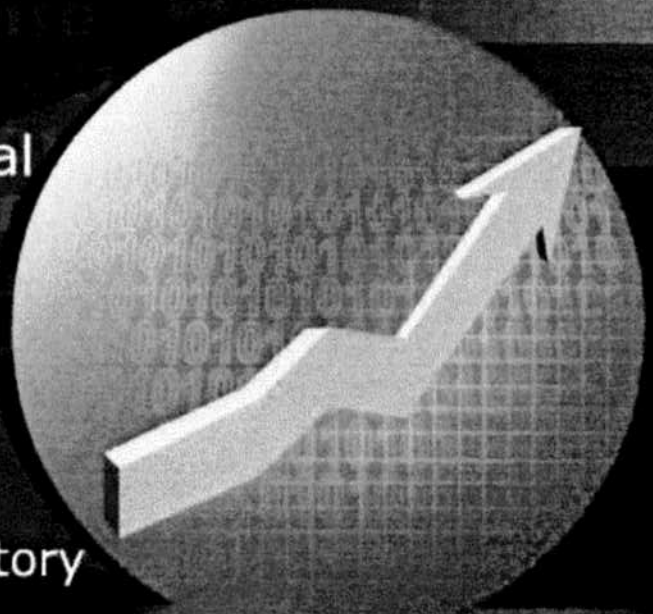
Conceptual Portrait

Comprehensive Data: The foundation for all NCCI activities

NCCI collects workers compensation data from insurers about their:

- Policies
- Claims
- Financial Results





Creating a quality data repository

QUIT

NCCI

Conceptual Portrait

Objective Analysis: Transforming data into valuable information

Analysis is driven by workers compensation specialists

- Generating the value in NCCI's services
- Enabling us to be the nucleus of workers compensation expertise

Countrywide Legislative Environment

- Budget issues continue to dominate
- Some states have enacted landmark reforms
- Misclassification of employees/independent contractors is an ongoing concern
- Regulatory turnover continues

Illinois Legislative Activity

HB 1698 (PA 97-0018), effective June 28, 2011

Makes numerous changes concerning the following in relation to workers' compensation: plans by the Department of Central Management Services for State employees, creation of the State Workers' Compensation Program Advisory Board, subpoenas, burden of proof, Commissioner and arbitrator standards of conduct, employee leasing companies, citations, construction employer collective bargaining, negotiated rate, wage differential, preferred provider programs, permanent partial disability, out-of-state fees, fee schedules, electronic claims, utilization review programs, employee intoxication, Commissioner qualifications, the Workers' Compensation Advisory Board, arbitrator appointments, prohibitions on gifts, claims brought by commission employees, carpal tunnel syndrome, fraud, sentencing, **advisory premium rates**, and insurance oversight. Makes other changes.

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

HB 1698—Advisory Premium Rate Adjustments on or Before 9/1/2011

- Medical Fee Schedule Changes (9/1/2011)
  - Reduce fee schedule amounts currently in effect by 30%
  - Establish fee schedule for prescriptions filled outside a licensed pharmacy
  - Set maximum reimbursement for surgical implants at 25% above the net manufacturer invoice (plus actual shipping)
  - Revise reimbursements to out-of-state providers

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

HB 1698—Advisory Premium Rate Adjustments on or Before 9/1/2011

- Wage Differential Benefits (9/1/2011)
  - Restricts the duration for which the wage differential benefits will be paid to age 67 or five years from the date the award becomes final, whichever is later

- PPD Claims for Carpal Tunnel Syndrome (6/28/2011)
  - Establishes Carpal Tunnel Syndrome as a scheduled injury with number of weeks of compensation capped

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

HB 1698—Advisory Premium Rate Adjustments on or Before 9/1/2011

Additional Provisions Reviewed:

- Burden of Proof for Obtaining Compensation
  - Injured worker now bears the burden of showing that injury was sustained arising out of and in the course of employment

- Temporary Partial Benefit Changes
  - Changes the calculation of TPD benefits to use current gross wages instead of current net wages

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

HB 1698—Advisory Premium Rate Adjustments on or Before 9/1/2011

- Choice of Healthcare Provider—Preferred Provider Programs (PPP)
  - When an employer has an approved PPP, an employee may decline to use the network providers, although doing so will constitute one of the choices of medical providers to which the employee is entitled

- Determination of PPD Impairment
  - Requires use of current *AMA Guides* in determining the permanent partial disability rating but allows consideration of other factors as well

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

NCCI

HB 1698—Advisory Premium Rate Adjustments on or Before 9/1/2011

- Utilization Review
  - Strengthens the ability of the employer/insurer to invoke the utilization review process
- Drug Use and Alcohol Intoxication
  - Provides for claim denial if the proximate cause of the injury is the employee's intoxication or the influence of alcohol or narcotics

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

HB 1698—Advisory Premium Rate Adjustments on or Before 9/1/2011

- NCCI estimates that HB1698 will reduce overall Illinois workers compensation system costs by 8.8%

Medical Fee Schedule change:	-7.4%
Wage Differential Benefits:	-0.8%
PPD Carpal Tunnel Benefits:	-0.6%
Overall Impact:	-8.8%

- NCCI filed revised rates and loss costs that became effective 9/1/2011 for new, renewal, and outstanding policies

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

HB 1698—Future Illinois Regulation

- Medical Fee Schedule Changes effective 1/1/2012 (IWCC)
  - Consolidation of 29 geozip regions to 4 regions for non-hospital fee schedule
  - Consolidation of 29 geozip regions to 14 regions for hospital fee schedules
- Rulemaking for Preferred Provider Programs (IDOI/IWCC)
  - Conditional approval may be granted pending finalization of the rules
- Rulemaking for Insurers on New Data Reporting Requirements (IDOI)
  - Section 29.2(b) lists 18 new data elements to be reported by insurers

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

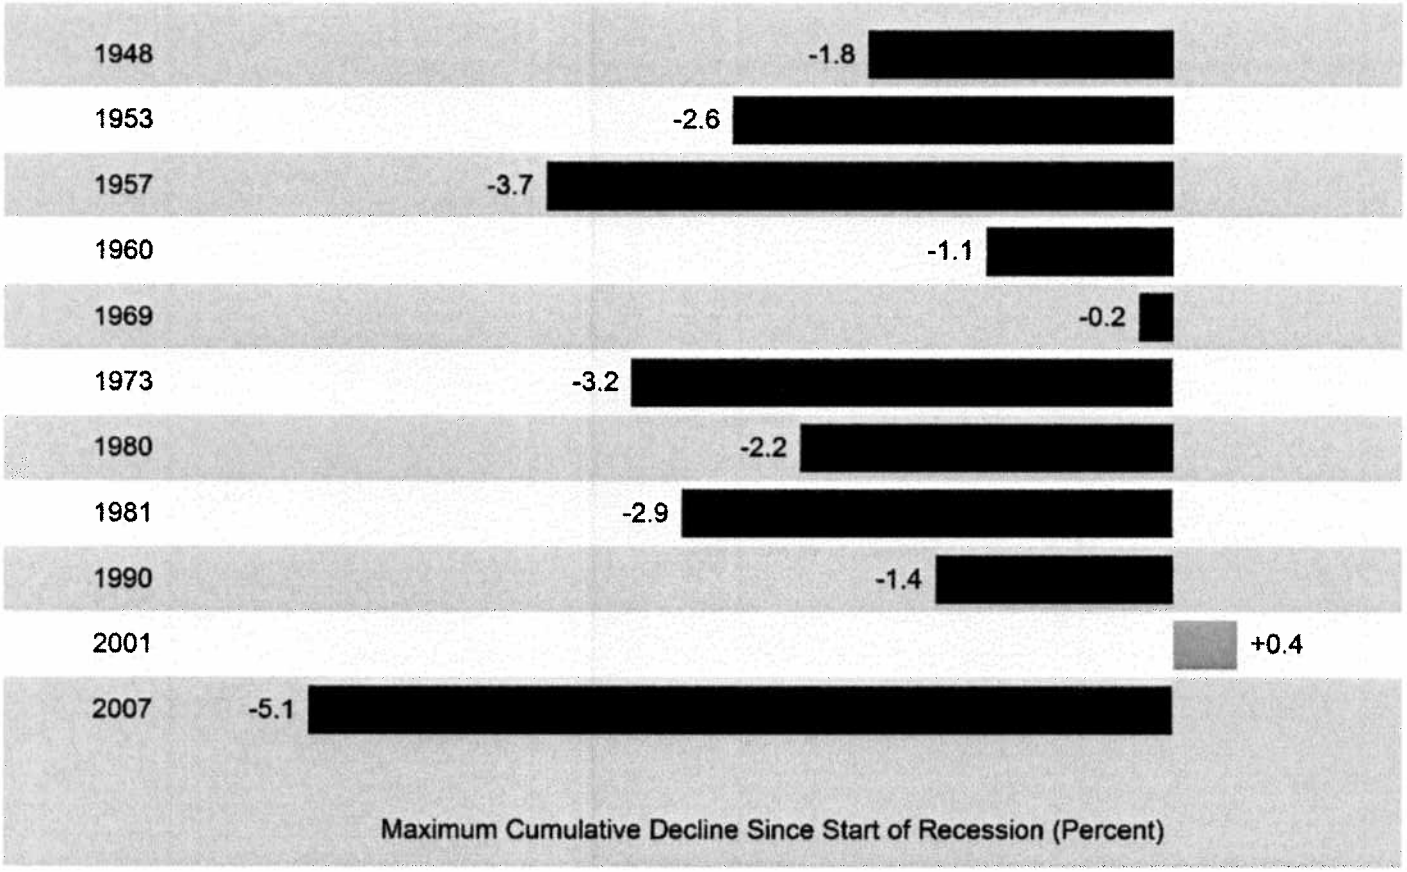
Severity of Recession: Output

The 2007 Recession Was the Most Severe Post-War Contraction

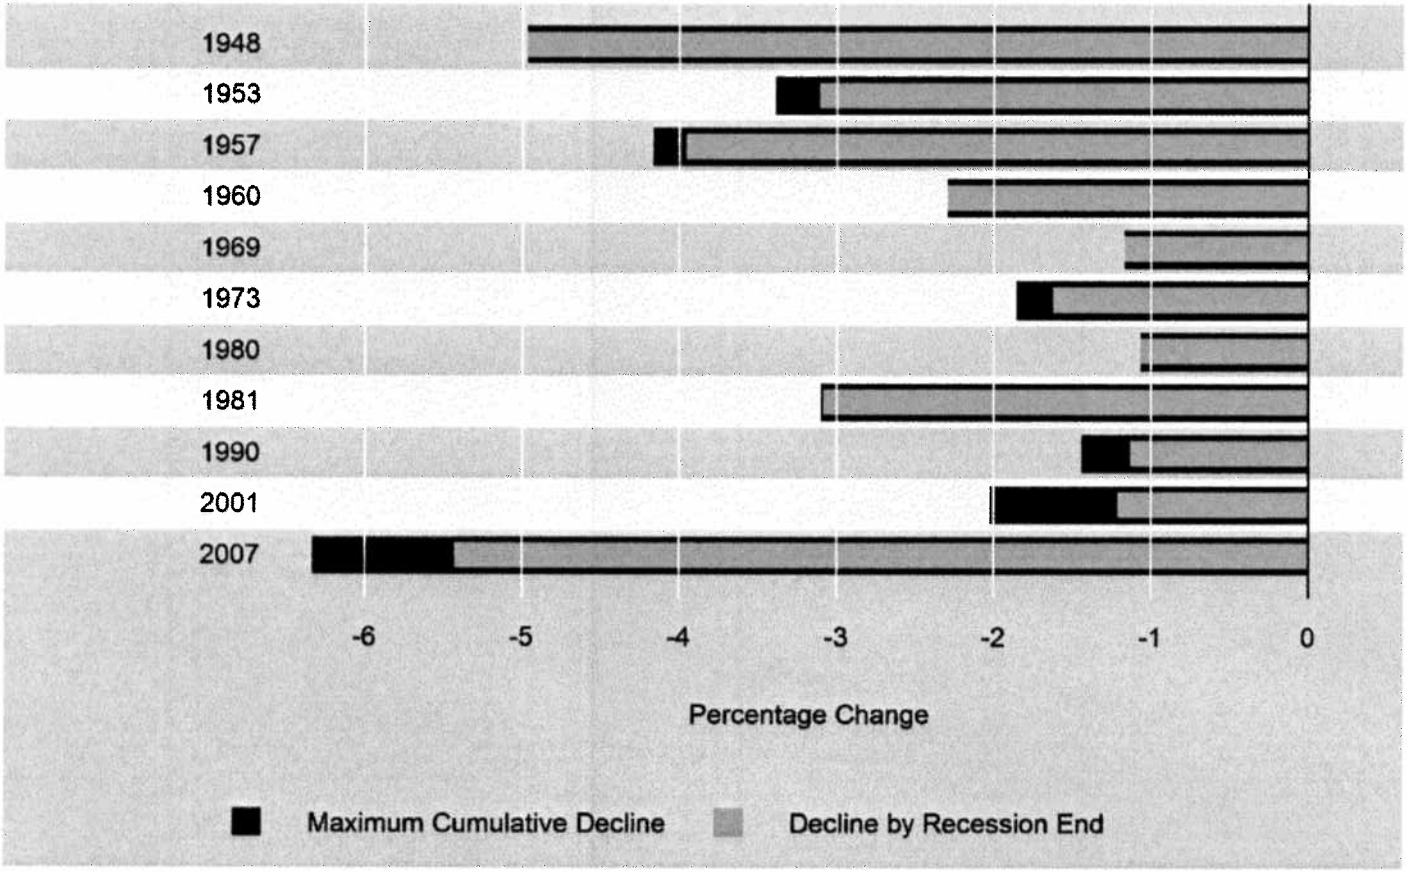


Severity is measured as the maximum cumulative percentage decline from the onset of the recession (peak of economic activity, as defined by the NBER); output is measured as Real GDP, billions of chained 2000 dollars, seasonally adjusted
Recessions are identified by the calendar year in which they started
Frequency of observation: quarterly; latest data point available for consideration: Q2/2011
Sources: BEA, www.bea.gov; NBER, www.nber.org/cycles.html

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

Severity of Recession: Employment

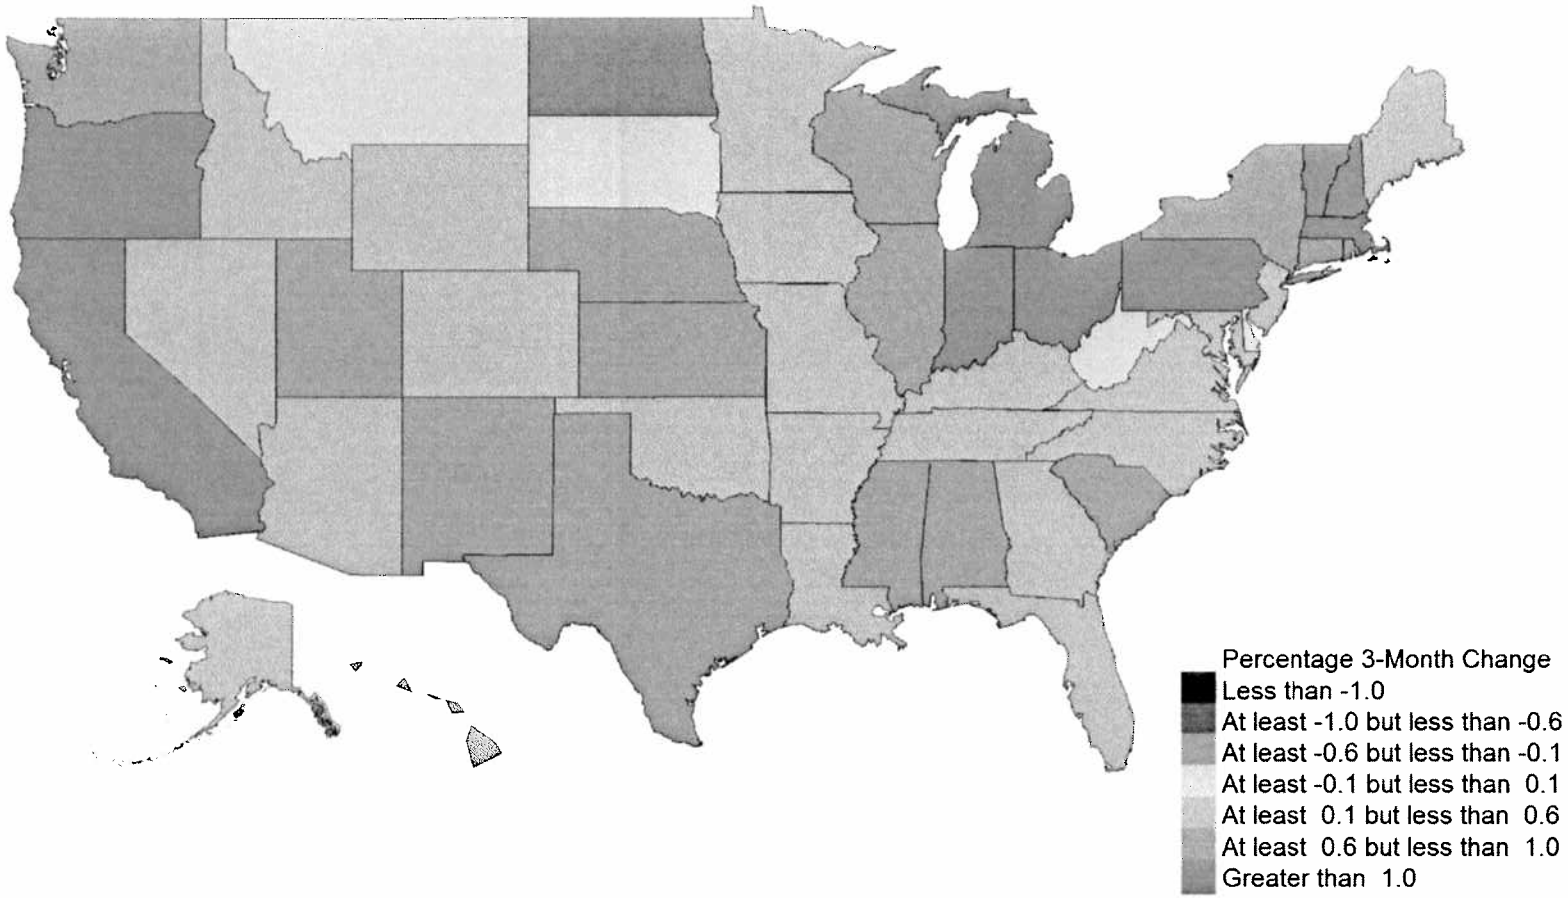
The 2007 Recession Caused Severe Job Losses



Severity is measured as the maximum cumulative percentage decline from the onset of the recession (peak of economic activity, as defined by the NBER); employment is measured as Total Nonfarm, Current Employment Statistics Survey, seasonally adjusted
Recessions are identified by the calendar year in which they started
Frequency of observation: monthly; latest data point available for consideration: August 2011
Sources: US Bureau of Labor Statistics (BLS), www.bls.gov; NBER, www.nber.org/cycles.html

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

The Economy on the Timeline: February 2011



The map shows state coincidence indexes, which combine four state-level economic measures to summarize current economic conditions in a single statistic; the four data items are nonfarm payroll employment, average hours worked in manufacturing, the unemployment rate, and wage and salary disbursements deflated by the consumer price index (US city average)
Frequency of observation: monthly; latest observation: August 2011
Source: FRB of Philadelphia, www.philadelphiafed.org/research-and-data/regional-economy/indexes/coincident

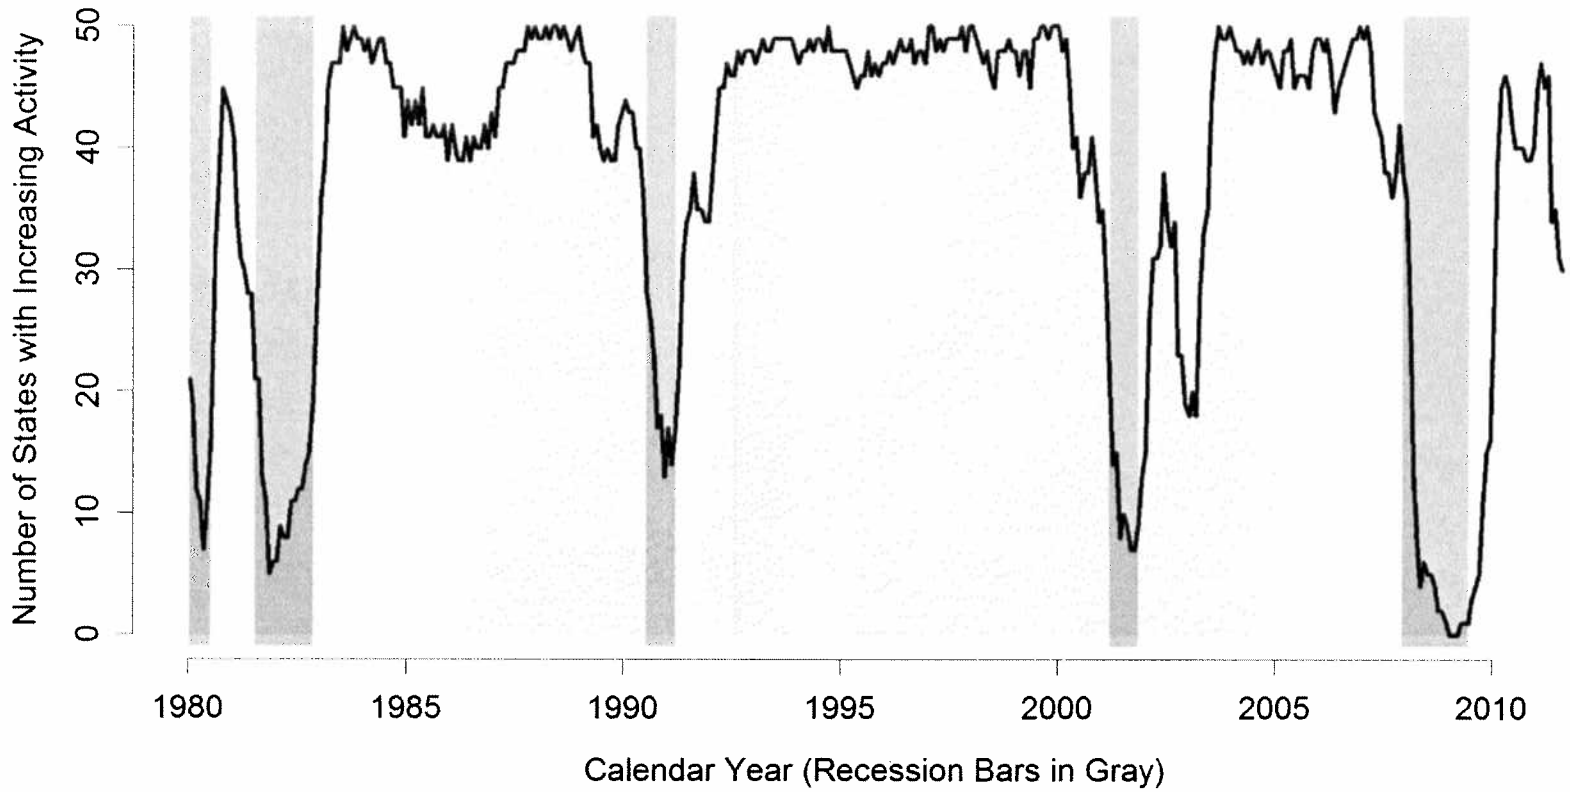
Number of States Expanding

There Is an Elevated Risk of the Current Soft Patch Giving Way to Recession



The chart shows the number of states for which the one-month change in the coincidence index of economic activity indicates an expansion
This index summarizes the state of the economy in a single statistic, using nonfarm payroll employment, average hours worked in manufacturing, the unemployment rate, and wage and salary disbursements deflated by the consumer price index (US city average)
Frequency of observation: monthly; latest observation: August 2011; does not include District of Columbia
Source: FRB of Philadelphia, www.philadelphiafed.org/research-and-data/regional-economy/indexes/coincident

Frequency and the Business Cycle

The Business Cycle Behavior of Frequency Is Driven by Job Creation

- During recessions, there are many establishments cutting jobs (**job destruction**) and only a few adding jobs (**job creation**).

- Job creation means adding employees, who are typically inexperienced in the new job. Because employees with short tenure are overrepresented among the injured, faster job creation (as is observed during economic recoveries) causes frequency to drop less than it would drop otherwise, or even causes frequency to rise temporarily.

- During recessions, the impact of slowing job creation more than offsets the opportunistic filing of workers compensation claims following layoffs.

For an empirical study on the link between frequency and the business cycle, see Schmid, Frank A. (2009), *Job Flows and Workplace Injuries*, www.ncci.com/Documents/WorkplaceInjuries-0709.pdf

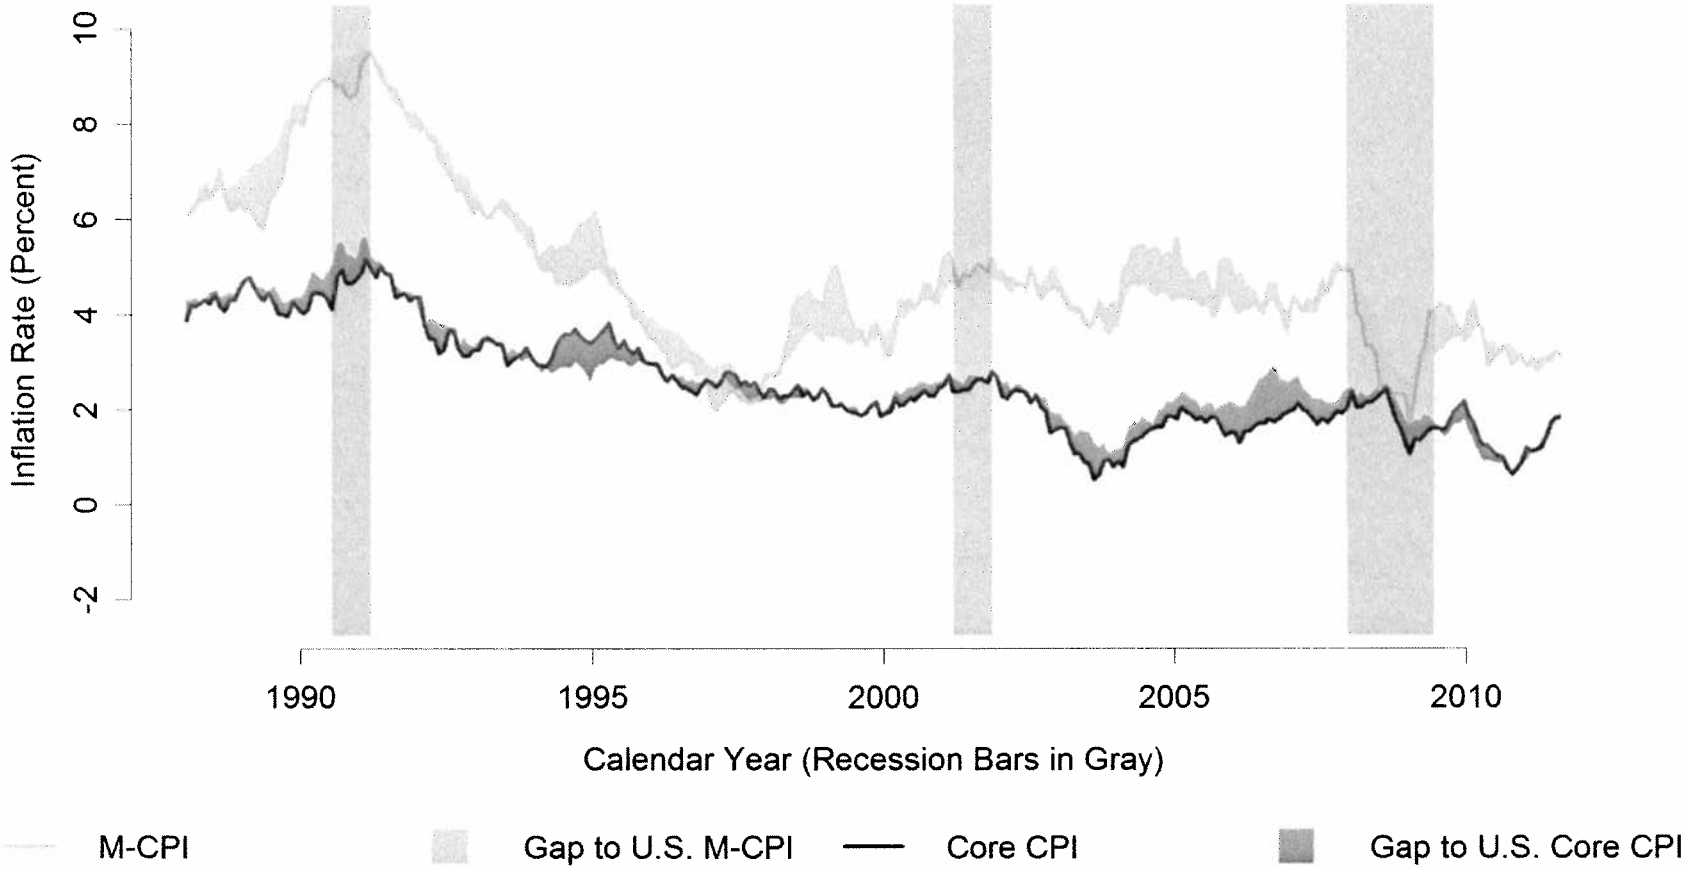
Midwest Region Inflation Rates

The Rate of Inflation Is Picking Up, Albeit From a Low Level



The Medical Care CPI is defined as the Medical Care component of the Consumer Price Index for all Urban Consumers (CPI-U)
The Core CPI is defined as the CPI-U, all items less food and energy
All values are for the Midwest Region, which is composed of IA, IL, IN, KS, MI, MN, MO, ND, NE, OH, SD, and WI
Inflation rates are year-over-year
Not seasonally adjusted
Frequency of observation: monthly; latest available data point: August 2011
Sources: FRED, www.research.stlouisfed.org/fred2; US Bureau of Labor Statistics (BLS), www.bls.gov

NCCI

Implications for Workers Compensation

- Economic growth is slow and is likely to remain sub-par for several years into the future
  - Job creation is tepid (and is likely to remain so)
  - As a consequence, upward pressure on frequency is limited
- Inflationary forces are weak, due to significant excess industrial capacity and high unemployment
  - Medical care price inflation and wage inflation are likely to be muted

Comparative System Overview

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

Illinois Workers Compensation System— An Overview

- Premium decline in Illinois has moderated
- Accident year combined ratios remain high
- Lost-time claim frequency was unchanged in the latest year
- Indemnity and medical loss ratios have been relatively stable
- Impacts from legislative reforms will emerge

© Copyright 2011 National Council on Compensation Insurance, Inc. All Rights Reserved.

State of the Workers Compensation Market— "Deteriorating"

- Calendar year and accident year combined ratios continue to deteriorate
- Decline in lost-time claim frequency stopped in 2010
- More increases proposed in latest NCCI filing cycle
- Impact of healthcare reform and federal involvement in insurance remains uncertain
